Provider shall use commercially reasonable efforts to ensure that all Services are performed in accordance with applicable laws and regulations, including but not limited to U.S. telecommunications law, and shall obtain all necessary licenses, permits, and approvals required for the performance of the Services. Notwithstanding the foregoing, Customer reserves the right to audit Provider's compliance with applicable laws and regulations, including the right to inspect Provider's facilities and records upon reasonable notice during normal business hours, provided however that Customer shall not interfere with Provider's business operations or access Provider's confidential business information without Provider's prior written consent. Provider shall, upon Customer's request, provide regular reports regarding its data privacy and security practices, including any audits, assessments, or certifications obtained by Provider. Customer shall have the right to audit Provider's compliance with its data privacy and security obligations, including the right to inspect Provider's facilities, systems, and records upon reasonable notice during normal business hours, provided however that Customer shall not interfere with Provider's business operations or access Provider's confidential business information without Provider's prior written consent.
